Date :2003-3-1. The book advances a new theory of plate tectonics as the guiding ideology. aspects from structural deformation. finite strain measurement and use of modern magnetic fabric. etc. method reveals the Western Paradise deformation in the Shandong section of the tectonic evolution; six different generations of Western Tianshan generations of a detailed summary of the deformation characteristics. and divided into three structural levels and each level of structural deformation. This book made a huge western Tianshan exist three ductile shear zones. for the first time the test is used to construct shape cathodoluminescence study. first proposed in the West Tianshan late Permian extensional tectonics occurred in one movement. Author for the first time in the northern margin of Tianshan belt mrange of aluminum found in green amphibole and phengite and other high-pressure metamorphic minerals. This book is rich in content. informative. explained fully. with extensive use of reference values ??for the relevant professional institutions and students research and production and reference applications. Contents: Chapter 1 Introduction 1.1 The reason behind the topics and work 1.2 Overview of Research Tianshan area constructed in Chapter 2 of the northern margin of Tianshan deformation of ductile shear zone of ductile shear zone 2.1 2.2 the basic characteristics of ductile shear zone deformation characteristics and the deformation path and the displacement of 2.3 calculated with the deformation of ductile shear deformation of the era of the environment and Alaska River Chapter 3 - Peak Road classes deformation of ductile shear zone 3.1 the basic characteristics of ductile shear zone 3.2 ductile shear zone construction and application of the deformation becomes ductile shear zone 3.3...
