## INVESTING IN A SECULAR BEAR MARKET (PAPERBACK)

DOWNLOAD

iUniverse, United States, 2005. Paperback. Book Condition: New. 228 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. How to Invest in a Secular Bear Market is a sequel to Alexander s 2000 book Stock Cycles, which forecast the start of a secular bear market, a lengthy period of poor investment performance. Alexander describes the structure of a secular bear market and explains why they happen. He then shows what an investor can expect from this secular bear market over the next 5-10 years and provides some investing strategies. This is a brilliant and scholarly study that looks to create longer term capital gains in retirement accounts based on cycle investing. What I found particularly fascinating was the very detailed and well-researched studies on the socio-economic/cultural cycles of change throughout history. Wear your thinking cap as the author shows you how to capitalize on these cycles in your IRA and 401(k) accounts. --Mohan 21st Century Futures This is a must read for anyone interested in the business cycles and their impact on investment dynamics and making money in the stock market. The book brings together multiple cycle theories in a comprehensive reading style. --Bruce Gulliver, Editor, Torpedo Watch.
