

IGCSE Study Guide for Physics

Filesize: 8.98 MB

Reviews

This ebook might be worth a read, and superior to other. It is probably the most amazing publication we have read. Your lifestyle period will likely be transform once you total looking over this publication.
(Alana McCullough)

IGCSE STUDY GUIDE FOR PHYSICS

To read **IGCSE Study Guide for Physics** PDF, remember to follow the link beneath and download the ebook or have accessibility to other information that are in conjunction with IGCSE STUDY GUIDE FOR PHYSICS ebook.

Cambridge University Press/Hodder Education, 2005. Softcover. Book Condition: New. This IGCSE Guide for Physics has been written especially for students preparing for the University of Cambridge International Examination IGCSE Physics syllabus (Core and Extended curriculum). Written by experienced examiners, it provides all the explanation and advice you may need to study efficiently and succeed in the exam. The subject is divided into topics. Each topic starts with a list of the Key Objectives, which specifies the skills and knowledge you need to acquire during the course. Where appropriate there is also a list of Key Definitions. The Key Ideas sections outline the content and can be used to check that you know and understand the essential concepts for IGCSE Physics. Common misconceptions and errors are highlighted, and sample questions with student`s answers and examiner`s comments show how you can improve your answers and increase your grades. Further questions (with answers at the back of the book) allow you to test your knowledge. Contents Introduction Topic 1 General Physics Measuring length, volume and time Speed, velocity and acceleration Mass and weight Experiments to measure density Forces and change of size and shape Forces and change of motion Turning effect and equilibrium Centres of mass and stability Scalars and Vectors Energy Work and Power -Pressure Topic 2 Thermal Physics Kinetic theory of molecules Solids Liquids Everyday uses and consequences of thermal expansion Gases Measurement of temperature Changes of state Gas pressure Thermal capacity Transfer of thermal energy Topic 3 Waves The nature of waves Water waves Light Electromagnetic spectrum Sound Topic 4 Electricity and Magnetism Magnetism Electromagnetism Electric charge Electric current Electromotive force and potential difference Resistance Electrical circuits Digital electronics Dangers of electricity The motor effect Electromagnetic induction Cathode rays Topic 5 Atomic Physics Atomic model Radioactivity Preparing for the examination...
