Reviews

The best book i actually go through. It can be full of wisdom and knowledge Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Prof. Greg Herzog)

PROCESS CONTROL

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 398 Publisher: Tsinghua University Press Pub. Date :2004-7-1. This book is the author of the Department of Industrial Instrumentation and Automation summary of many years of teaching. is used in the calendar year on the basis of lecture notes after numerous modifications written. the book includes the author and colleagues in the professional field of process control portion of scientific research. The book systematically describes simple and complex control system structure. principles. design. analysis and evaluation. in-depth dissection of the two typical examples of production process control system. try the entire production process from the characteristics of the integrated control system based sauce and optimization. On this basis. also introduced several high relatively mature process control strategy. and seeks to reflect new developments in process control in recent years. Book from the basic concepts of mathematics and physics begin to explain the nature of the problem and process control features. and control system design and analysis of the basic method. The book is divided into 15 chapters. each have thinking problems and exercises. This book can be used as automatic control class institutions of higher learning and related professional materials and reference for the scientific and technical personnel Contents: Contents Introduction I. Overview of the production process automation and trends Second. the process control tasks and requirements for simple references first manufacturing process control systems Chapter 1-1 the dynamic characteristics of process control system performance 1-2 the dynamic characteristics of a controlled object. the basic concept of two. a number of simple dynamic characteristics of three charged objects. the dynamic characteristics of industrial processes Features 1-3 establish the process and methods of a mathematical model. mathematical model...
