The quality popularly designated as Common Sense comprehends, according to the modern point of view, the sound judgment of mankind when reflecting upon problems of truth and conduct without bias from logical subtleties or selfish interests. It is one of Nature's priceless gifts; an income in itself, it is as valuable as its application is rare. In the teachings that follow, the venerable Shogun, Yoritomo-Tashi, points out that Common Sense is a composite product consisting of (1) Perception; (2) Memory; (3) Thought; (4) Alertness; (5) Deduction; (6) Foresight; (7) Reason, and (8) Judgment. Discussing each of these separately, he indicates their relations and how they may be successfully employed. Further, he warns one against the dangers that lurk in moral inertia, indifference, sentimentality, egotism, etc. Common Sense is a quality that must be developed if it is to be utilized to the full of its practical value. Knowledge without common sense is folly; without method it is waste; without kindness it is fanaticism; without religion it is death. In these pages, Yoritomo-Tashi teaches his readers how to overcome such defects of the understanding as may beset them. He shows them how to acquire and develop common sense and practical sense, how to apply them in their daily lives, and how to utilize them profitably in the business world. To him common sense is the crown of all faculties. Exercised vigilantly, it leads to progress and prosperity, therefore, says he enthusiasm is as brittle as crystal, but common sense is durable as brass. THE PUBLISHERS.
