

Metallic corrosion inhibition by organic molecules

By Pavithra M Krishnegowda

LAP Lambert Academic Publishing Jun 2016, 2016.

Taschenbuch. Book Condition: Neu. 220x150x15 mm. This item is printed on demand - Print on Demand Neuware - The snag caused by corrosion is one of the major problems faced by every country. In the present scenario, a study on the corrosion protection of metals occupies a distinctive position in the field of material science. Hence the investigation on inhibition effects of few drug molecules and a plant extract on mild steel and aluminium alloy 6061 have been undertaken. By considering the environmental issues and the non-toxic nature of inhibitors, drugs molecules such as Rabeprazole sulfide, Colchicine, Lumefantrine and Doxycycline hydrochloride along with a leaf extract of Acalypha torta plant selected for the study, showed remarkable corrosion inhibition efficiency. The results of the present investigation will help in handling corrosion problems and serve as references in similar situations. The mechanism and methodology developed in this work would provide an additional knowledge to corrosion science particularly in the area of acid corrosion and inhibition. This will help in tackling corrosion problems and serve as references. 252 pp. Englisch.

Reviews

These sorts of pdf is the greatest ebook offered. We have study and that i am sure that i will going to study once more once more in the future. Its been printed in an remarkably simple way and it is only after i finished reading through this pdf through which in fact transformed me, affect the way i believe.

-- **Mr. Dashawn Block MD**

This ebook might be worth a read, and superior to other. It is probably the most amazing publication we have read. Your lifestyle period will likely be transform once you total looking over this publication.
