With them the teacher is everything, the text-book nothing. The first years of a child s school life should be devoted to gaining that sort of knowledge and that sort of mental discipline which will enable him in the upper grades to come to new knowledge by thinking, rather than by reading what others have thought. For this reason this course in geography is divided into two, an Elementary and a Scientific Course. The first is adapted to the upper primary and intermediate grades, the second to the grammar and high school grades.
