Language: English Brand New Book ***** Print on Demand *****.Excerpt from Hydraulic Motors: With Related Subjects, Including Centrifugal Pumps, Pipes, and Open Channels, Designed as a Textbook for Engineering Schools By reason of the great increase that has taken place of recent years throughout the world in the utilization of water power, notably in connection with the electric transmission of energy, a special and growing prominence attaches to the subject of Hydraulic Motors in the curriculum of engineering schools. In the preparation of the following pages, as forming a text-book on this important branch of hydraulics for the use of students of engineering, it has been borne in mind that to facilitate the acquirement of clear and sound ideas on the mechanics of the subject is the first essential of such a book; and, as greatly assisting to this end, ample numerical illustration has been provided in direct connection with the necessary algebraic treatment. At the same time, it is believed that sufficient descriptive matter has been introduced, relating to both past and present construction and design, to make the treatment a fairly practical one for its...

Reviews

A whole new e book with a new point of view. This is certainly for all those who statte there had not been a well worth looking at. I am just very easily could get a delight of looking at a created pdf.
