Let LM be the axis, and ED a bounding element of another semi cylinder, the right section of which is a semidrcle; LM and EP being also in the given horizontal plane. It is proposed, with these data, to find the lengths of the, elements of tlie oblique cylinder intercepted between the vertical plane of A B O and the horizontal cylinder; the curve of rtght section of the oblique semi cylinder at any assumed point; and the development of the portion of it which lies between the given vertical plane and the horizontal semi cylinder. 1st. The simplest method of finding the true lengths of the elements between the vertical plane and horizontal cylinder will be to construct their projections on another vertical plane parallel to them. Let BN be the trace of such a plane on the...
