Fire Administration, National Fire Data Center, 1993. OCLC Number: (OCoLC)71806157 Subject: Fire investigation -- Case studies. Excerpt: . . . USFA-TR-072 February 1993 5 Firefighters were able to gain access to all portions of the building at this time, where they discovered three bodies in the second floor north apartment bedroom and six bodies in the second floor south apartment living room. The victims in the south apartment appeared to have been asleep on the floor and never woke up. One boy who did not live in the south apartment apparently went into that apartment while his father was fighting the fire in the hallway. All the bodies were removed and transported to the morgue. During the overhaul operation, a melted battery-operated smoke detector was found on the floor in the living room by the north wall of the apartment where the six fatalities occurred. Above it was an air transfer vent which allowed smoke and heat into this room from the corridor. It appears that this detector was mounted somewhere below this opening. Fire...
