MONSTER HUNTER: NEMESIS

Baen Books. Book. Book Condition: new. BRAND NEW, Monster Hunter: Nemesis, Larry Correia, Agent Franks of the U.S. Monster Control Bureau is a man of many parts - parts from other people, that is. Franks is nearly seven feet tall and all muscle. He's nearly indestructible. Plus, he's animated by a powerful alchemical substance and inhabited by a super-intelligent spirit more ancient than humanity itself. Good thing he's on our side. More or less. Sworn to serve and protect the United States of America from all monsters by one of the country's founding fathers, Franks has only one condition to the agreement: no matter what the government learns of him, no matter what is discovered concerning his odd physiology or the alchemy behind the elixir that made him, the government is never, ever allowed to try and make more like him. Project Nemesis: in a secret location, using sophisticated technology and advanced genetic engineering, the director of the very agency Franks works for is making more like him. And the director is not content with making one. Nope, he's making thirteen. Now all bets are off, and Hell hath no fury like a monster betrayed. Particularly if that monster happens to be an undying killing machine capable of taking out vampires and werewolves with one hand tied behind his back.
