

The Mathematics of Surfaces IX

Filesize: 7.07 MB

Reviews

I just began looking at this pdf. We have read through and that i am confident that i will gonna study once more once more down the road. Your lifestyle span will likely be change the instant you complete looking at this ebook.

(Eli Rau)

THE MATHEMATICS OF SURFACES IX

To read **The Mathematics of Surfaces IX** PDF, you should click the web link beneath and download the document or gain access to additional information which are related to THE MATHEMATICS OF SURFACES IX ebook.

Book Condition: New. Publisher/Verlag: Springer, Berlin | Proceedings of the Ninth IMA Conference on the Mathematics of Surfaces | These proceedings collect the papers accepted for presentation at the bien nial IMA Conference on the Mathematics of Surfaces, held in the University of Cambridge, 4-7 September 2000. While there are many international conferences in this fruitful borderland of mathematics, computer graphics and engineering, this is the oldest, the most frequent and the only one to concentrate on surfaces. Contributors to this volume come from twelve different countries in Europe, North America and Asia. Their contributions reflect the wide diversity of present-day applications which include modelling parts of the human body for medical purposes as well as the production of cars, aircraft and engineering components. Some applications involve design or construction of surfaces by interpolating or approximating data given at points or on curves. Others consider the problem of ‘reverse engineering’-giving a mathematical description of an already constructed object. We are particularly grateful to Pamela Bye (at the Institute of Mathematics and its Applications) for help in making arrangements; Stephanie Harding and Karen Barker (at Springer Verlag, London) for publishing this volume and to Kwan-Yee Kenneth Wong (Cambridge) for his heroic help with compiling the proceedings and for dealing with numerous technicalities arising from large and numerous computer files. Following this Preface is a listing of the programme committee who with the help of their colleagues did much work in refereeing the papers for these proceedings. | Meshless Parameterization and B-Spline Surface Approximation.- Computation of Local Differential Parameters on Irregular Meshes.- Remarks on Meshless Local Construction of Surfaces.- Gaussian and Mean Curvature of Subdivision Surfaces.- Best First Translational and Rotational Surfaces for Reverse Engineering Shapes.- Problem Reduction to Parameter Space.- Higher Order Singularities in...
